

Repair of the Great Otorii Gate

Due to the wild windy weather on April third, we urgently need to repair the roof of the Torii Gate.

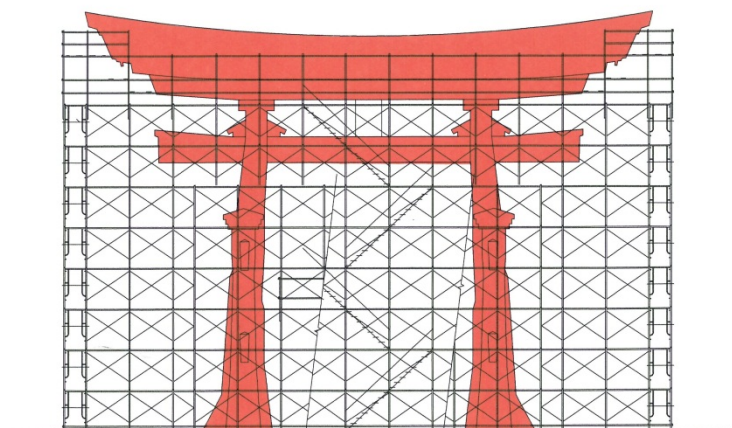

Term of repair 2012. APRIL 19th ~ JUNE 18th

We put up scaffolding and security net around the gate to prevent from falling building materials. Please see pictures below.

We are sorry this maybe cause you difficulty to see the gate. You can visit Itsukushima Shrine and see the illumination around this site. Please understand the situation to maintain the precious historic asset.
